10th Annual Energy Policy Conference

DYNAMICS of ENERGY POLICY & MEGATRENDS

Sponsorship details

Energy Policy Conference
The Energy Policy Conference is one of the premier conferences in North America, focusing on improving understanding of energy policy and related decision-making. It attracts domestic as well as international researchers and practitioners from academia, industry, national laboratories, NGOs, and government. We invite you to join us as a sponsor.

The Energy Policy Institute
The Energy Policy Institute is a non-partisan and evidence-based research, advising, and training center that specializes in policy-relevant aspects of energy transitions. We focus on how to manage shifts — planned and unanticipated — in natural, technical and human systems that relate to energy use. As the policy body for the Center for Advanced Energy Studies (CAES), we work with policymakers, industry and communities to advance understanding of clean, safe and secure energy systems.

Partnering as a Sponsor or Exhibitor provides exposure for your organization to thousands of energy policy researchers and practitioners via our website, email, and print materials. Our 10 year anniversary makes this year an even greater opportunity for your organization to help us build the foundation for another decade of success.
