"From the periphery to the center, Ethnic Studies is the elixir of our stories untold to be read and said."

For questions contact:
Dr. Arthur Scarritt
arthurscarritt@boisestate.edu

"We believe that ethnic studies programs are not ethnically exclusionary; more important, we insist that they are integral to an understanding of American national identity and the American national project. We therefore believe that all students in the United States should become acquainted with a wide variety of American ethnic histories and heritages."
