

What happened to our fall 2013 freshman cohort one year later?

The fall 2013 first-time, full-time freshman cohort contained 2,075 Students. Of these students, 1,555 (75%) enrolled in the fall 2014 term as of tenth day, leaving 520 who were not enrolled. These 520 students were submitted to the National Student Clearinghouse to determine whether they were enrolled elsewhere.

Of the non-retained students, 153 transferred to other schools, which is 7% of the original cohort. Eighty-five of the remaining non-retained students were placed on academic dismissal, and the fates of the remaining 282 students are unknown.

Where did transfers-out go?

Of the 153 students who transferred (“transfers-out”), 74 (48%) attended other Idaho institutions. California was the next largest recipient of transfers from the 2013 cohort, with 21 students (or 14% of transfers) enrolling there. The remaining transfers were scattered across the country, with majority concentration in Western states. See Table 1.

Institutionally, the College of Western Idaho was the recipient of the largest number of transfer-out students. Forty of the non-returned transferred to CWI, or 26%. No single institution outside of Idaho captured more than four students. See Table 2.
