Make new friends and learn new skills!

July 18-22, 2022
Boise State University’s College of Engineering
9 a.m. to 3 p.m.

The Cyber Operations and Resilience Program or CORe for short is hosting the Cyber Summer Camp for junior high and high school students (7th-12th grade) to provide students with a hands-on experience to the world of information technology and cybersecurity. Students will learn the basics of information technology and security, as well as cybersecurity basics.

You will have the opportunity to:
• learn what’s in a computer
• install an operating system
• build a network
• learn what a cyber blue team does

For more information and to apply online visit
boisestate.edu/coen/outreach/cyber-summer-camp/

For 7th-12th grade students
Lunch provided
Application Deadline: June 3, 2022
Cost: $150 (scholarships available)
