Networking and Nonprofit Showcase

Networking is an important component of the Institute. Fellows have scheduled time for networking but must first be given an opportunity to decide who to network with! Fellows will be introduced to Peer Mentors on an individual basis but we know there are many amazing nonprofits in the Treasure Valley that may Fellows may also be interested in meeting. In order to expose our Fellows to a variety of nonprofit organizations, we will be holding a Nonprofit Showcase at our Community Reception on Wednesday, June 24. We expect about 100 attendees and would like to have a dozen exhibitors. This is not only a great way for the Fellows to learn about your organization but for community members to as well!

Institute staff will select interested organizations based on Fellow’s professional interests, expressed personal interests and/or applicability to Africa.
